MATRIX PFB FEED WEIGHERS

Matrix_PFB_NL25013

1 PFB-35b 35 Liters 23.05.15

2 Choose frame:

- A Standard PFB-35-OS 24.10.50
- B High PFB-35-OSV 24.10.49

3 Choose storage hopper:

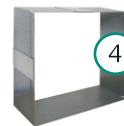

- E Small PFB-35-OVK 24.10.52
250x150 mm. Angles: 0° / 15° / 30°
- F Large PFB-35-OVG 24.10.53
400x320 mm. Angles: 0° / 15° / 30°

2 + 3 Combination frame + hopper

- C Combination PFB-SV 23.05.30
Seperation valve. 400x320 mm. 0° angle

*Example image: High PFB-35-OSV
with (optional) OZR-BB extension frame

Optional

24.10.02

OZR-BB Extension frame

for extra capacity hopper. This is recommended with High PFB-35-OSV (24.10.49)

24.01.00

VS-90 Top filler tube 90°

for easy connection of auger from supply silo

24.02.00

VS-75 Top filler tube 75°

24.03.00 + 24.03.05

Feed sensor min/max + UN-M50 union nut

for feed detection. 1 Feed sensor recommended. Optional: 1 extra.

24.10.20

DEK-35-UNI Cover (plate 1-2 holes)

This is standard included in PFB-35 (23.05.15)

10.16.05

RS-485 communication print

10.77.70

UTP cable

for RS-485 and FN-communication

10.72.05

V24/100 transformer 100VA 230/24Vac

for power supply

MATRIX PFB FEED WEIGHERS

1 PFB-70b 70 Liters 23.05.16

2 Choose frame:
D High PFB-70-OS 24.10.51

3 Choose storage hopper
G Small PFB-70-OVK 24.10.54
250x150 mm. Possible angles 0° / 15° / 30°
H Large PFB-70-OVG 24.10.55
400x320 mm. Possible angles 0° / 15° / 30°

*Example image: High PFB-35-OSV
with (optional) OZR-BB extension frame

Optional

24.01.00
VS-90 top filler tube 90°
for easy connection of auger from supply silo

24.02.00
VS-75 top filler tube 75°

24.03.00 + 24.03.05
Feed sensor min/max + UN-M50
union nut
for feed detection. 1 Feed sensor recommended.
Optional: 1 extra.

24.10.23
DEK-70-UNI Cover (plate 1-2 holes)
This is standard included in PFB-70 (23.05.16)

10.16.05
RS-485 communication print

10.77.70
UTP cable
for RS-485 and FN-communication

10.72.05
V24/100 transformer 100VA 230/24Vac
for power supply
