

The PL-9600 poultry management computer is part of a total solution for farm automation.

Our climate solutions and management systems fit together seamlessly. In this way, we guarantee a customized solution, worldwide.

FOR NOW AND FUTURE GENERATIONS

PL-9600

NEXT GENERATION FARMING TECHNOLOGY

Smart and intuitive Poultry Computer

STIENEN AGRI AUTOMATION

Stienen is a leading family company (1977) which has its roots in livestock farming. It is in our nature to be very close to our end users. We are a global supplier of innovative automation solutions for poultry and pig houses. Our climate solutions, automation systems, management software and the accompanying peripheral equipment are all developed and produced in-house.

STIENEN 

PL-9600-L-EN25014

STIENEN 

- Simple operation through intuitive design
- Always an overview of your farm, wherever you are through FarmConnect
- Experience a state-of-the-art touchscreen user interface
- Real-time insight into the current house situation
- Customizable dashboard based on your needs and preferences
- Make data-driven choices using insightful charts and graphs
- Seamless cooperation and integration with third parties thanks to API connection
- No loss of historical data if internet connection is lost

Future proof Farmmanagement

Experience the simplicity of modern technology with our next generation management computer : The PL-9600.

This intuitive computer is designed so that you can effortlessly access to all your farm information, wherever you are, thanks to FarmConnect. With real-time insight into the current situation of your farm, you can directly respond to changes and challenges.

Customize your dashboard based on your personal needs and preferences. Make data-driven choices using clear charts and graphs, so you are always well informed and can make the right decisions.

No worries about internet connections: in case of an interruption, you will not lose historical data, so you can always look back.

Overview

With the application of widgets, graphs and logging at the function level, users can easily track and manage important data. Thanks to the graphical display of parameters such as temperature, water, feed, weight, production, relative humidity (RH), light, carbon dioxide (CO2) and ammonia (NH3), you have access to all essential management information. This makes managing your poultry house more efficient and convenient than ever.

SPECIFICATIONS PL-9600

PL-9600

PL-9600-i

GENERAL

	PL-9600 (surface mounted)	PL-9600-i (built-in)
Dimensions in mm (h x b x d)	320 x 375 x 165	284 x 407 x 120
Screen size	10.1 inch	15.6 inch
Power supply	230Vac - 50/60Hz	230Vac - 50/60Hz
Load	50VA	60VA
Protectionclass	IP-54	IP-00

STANDARD OPTIONS

	PL-9600 - PL-9600-i
Analog outputs 0-10V	12
Relay outputs 230Vac/2A	30
Temperature sensors	12
Analog inputs *	5
Digital inputs for counters, measuring fan, external alarms, etc.	10
Pressure sensor 0 – 300 Pa	1
Alarm contact 24Vdc/2A	1
Supply voltage 24Vdc/180mA ** for AQC, among others	1
Supply voltage 24Vdc/90mA for Module-bus	2

* Or can be used as output 12Vdc 15ma.

** Max. 180 mA available, to be distributed over 5 connections

EXTENSION OPTIONS

	PL-9600 - PL-9600-i
Communication via RS-485-print	1
Module bus connections for communication with external modules	2
Connection FN-bus	1

FARMCONNECT

The FarmConnect farm software collects all current and historical data of all control computers on your farm, combines this data, and then presents it in clear overviews, graphs and tables. FarmConnect gives you access to your farm data. Wherever you are, you are always connected to your company so that you can intervene immediately if necessary.

FEATURES

- + Remote Control
- + Customizable Dashboard
- + Farm Analytics
- + API connection
